

and substitute therefor. This application is a continuation of U.S. Patent Application Serial No. 09/034,606, filed March 3, 1998, which is a continuation of U.S. Patent Application Serial No. 08/363,264, filed December 22, 1994, Patent No. 5,814,062, the entirety of which is hereby incorporated by reference.

In the Claims

Please cancel claims 1-20 in the original application without prejudice or disclaimer to the subject matter contained therein.

Please add new claims 1-4 as follows.

21
1. (New) An apparatus for use in occluding a body cavity comprising:
a pusher; and
a detachable occlusive implant fluidly coupled to the pusher via a lumen in the pusher, said implant detachable from said pusher by fluid pressure delivered via said pusher lumen.

22
2. (New) The apparatus of claim 1 wherein the implant is a coil.

23
3. (New) The apparatus of claim 2 wherein the coil is a platinum coil.

24
4. (New) The apparatus of claim 2 wherein the coil has a length of between about 0.5 to 60 cm.
